

Grocery Shopping is Family Time!

Trying to have a safe, pleasant and productive shopping trip with children along is sometimes a challenging experience to say the least. how do I take all of my kids with me and keep them close?

There are options that look fun and have play value; but they simply don't have enough room for everything my growing family needs.

That's why Shop-along was invented. It has everything a growing family needs. A safe place for kids close to mom or dad and plenty of room for purchases.

Shop-Along even has a Family Option for two toddlers and one infant.

Want Shop-Along in your favorite stores?

You have the power! Ask the store manager or email the company president. Your voice makes a difference!

You can help educate store managers.

Bring this post to your store manager. Have them scan the QR Code and they will have everything they need to order Shop-Along for their store.
