

# Hey New Moms - SHOP SAFELY WITH YOUR BABY!

Did you know placing an infant carrier on top of a shopping cart is extremely dangerous? Despite common misconceptions, 100% of infant carrier manufacturers warn against it - and it's even prohibited by safety standards.

Thousands of babies are injured or worse each year when carriers fall from carts.

Putting the carrier inside the cart basket is also unsafe and limits your shopping space.

**The solution?**

**Safe-Dock**

a universal docking station designed for shopping carts, tested for safety by independent labs.

## Want Safe-Dock in your favorite stores?

You have the power! Ask the store manager or email the company president. Your voice makes a difference!

You can help educate store managers.

Bring this post to your store manager and have them scan the QR Code.

Here they will find all they need to get **Safe-Dock** in your store.

Share this to **SPREAD THE WORD** and protect more babies!
